Dan Turner,

Sincerely yours,

sees you in Tuscaloosa on March 19 for our next meeting, please keep in mind that our next financial transactions and records, student members, and faculty support for their duties, and the Student Government Association will be in charge of all of these tasks. It will be the responsibility of the officers to ensure the meeting's agenda is followed, and it will be available to all members and should outline procedures for managing the division. Developing a series of policy statements to develop the operating policy manual. Your officers are busy

have not already done so. I encourage you to consider a donation, if you think it is overdue for our vote of thanks. The time to send detailed recognition to someone you year and transportation activity works. Take note that we have much better attendance and note your support, and in each meeting, our membership increases. Our membership increase of the membership committee will be busy selecting the opportunity to nominate someone for one of the awards. I hope that you have taken advantage of

AUBURN STUDENT CHAPTER

The Auburn University ITE Student Chapter recently hosted 2 meetings with technical speakers. Mr. Bobby D. Smith of Smith-Alsobrook & Associates spoke at a joint ASCE/ITE meeting on January 28th on "Accident Reconstruction: Vehicles, Tires and Speeds". Mr. Dick Garner of 3-M Company, and Alabama Division Member spoke on February 4th on "Value Purchasing of Traffic Control Products". As a result of these presentations, our students know how to avoid traffic accidents and why high intensity sign sheeting works.

Robby Anderson, Engineering Council Representative, is coordinating plans for the implementation of the E-Day Shuttle System. Plans are being made by President Norman Stiegler and Secretary-Treasurer Ken Cush to provide free transportation to students who desire to attend the Highway Engineering and Construction Conference in Montgomery, the Division meeting in Tuscaloosa, and the SSITE meeting at Callaway Gardens.

CONGRATULATIONS

Division members Bob Vecellio and Tom Culpepper have been selected as the recipients of the 1986 J. James R. Croes Medal for their paper entitled "Work Area Traffic Control: Evaluation and Design". The paper, published in the ASCE Journal of Transportation Engineering, was judged worthy of this national award, named in honor of a Past President of ASCE, for "its merit as a contribution to engineering science". The research upon which the paper was based was sponsored by the State of Alabama Highway Department. The award, consisting of a gold medal, bronze duplicate, and certificate was presented at the national ASCE meeting in October in Boston.
The Panama Canal is a marvel of engineering and has been a source of national pride for many years. However, recent studies have shown that the canal is facing significant challenges due to climate change and rising sea levels. The canal is currently under threat, and urgent action is needed to ensure its continued operation.

President Jones has announced a major initiative to address these challenges, including the construction of new locks and the implementation of renewable energy sources. The canal's employees and stakeholders are working together to ensure the canal's future, and the community is invited to participate in the upcoming meetings to learn more about the plans and how they can contribute to the effort.
