President's Message

It's hard to believe this year is almost over! Serving the Section as President has really been an honor and a privilege. I want to thank the entire membership for the support shown to me this year. A very special "Thanks" to the Board, Committee Chairs and Committee Members. Your hard work and dedication is greatly appreciated.

Circle October 7th on your calendar and meet us in Tuscaloosa for the Fall Meeting. Joe Robinson, David Griffin and Vice President Bowden are planning a great meeting.

As we approach the end of the year, Vice President Bowden will be preparing the 1993 Annual Report. This is a monumental task and you can help by sending him any information about your professional activities (lectures, papers, etc.) for this year. The membership activities are reviewed by the District V Awards Committee and aid in their selection of the Outstanding Section of the Year. Help us bring the award back to Alabama!

Again, my thanks to each and every one of you for helping make this another great year for the Alabama Section!

I hope to see you in Tuscaloosa.

Nancy

1994 ALSITE Officers

The following officers were appointed for 1994:

President: Locke D. (Bubba) Bowden
Vice President: Robert W. Adams
Secretary/Treasurer: Bruce Thomason
Affiliate Director: Billy Joe DeRamus
Asst. Affiliate Director: William Flowers
Section Representative: Rod Long

1993 ANNUAL REPORT

Vice President Bubba Bowden will be preparing the 1993 Annual Report. Any member interested in supplying information for the report should return the enclosed questionnaire to Bubba by December 1, 1993. If anyone has questions concerning the Annual Report or the questionnaire, they should contact Bubba at (205) 241-2910 or Fax Number (205) 241-2414.

Annual Meeting Minutes

June 10 & 11, 1993

The 1993 Annual Meeting of the Alabama Section Institute of Transportation Engineers was held on June 10 and 11, 1993, in Gulf Shores, Alabama at the Quality Inn Beachside. The meeting consisted of a Thursday morning and afternoon technical sessions, the Annual Banquet Thursday evening, a Friday morning breakfast and the Annual Section Business Meeting. The meeting was also a joint meeting with the Deep South Section.

PROGRAM AND MEETING ARRANGEMENTS

Locke D. (Bubba) Bowden and Gary Dennis

AGENDA

THURSDAY, JUNE 10, 1993

Registration: Gary Dennis and Jim Stewart
Welcome: Locke D. (Bubba) Bowden
Technical Session I:
"Alternate Forms of Communications: The use of CATV" Dean Tekeli, City of Lafayette, Louisiana.
Lunch
Technical Session II:
"ISTEA: The Local Perspective" Kloebo Loftin, Director, Planning, Programming, & Transportation, City of Montgomery, Alabama.
"ISTEA: The State Perspective" T. Paul Weldon, State Traffic Engineer, Alabama Highway Department.
Break
Annual Banquet
Annual Scholarship Auction and Fellowship
FRIDAY, JUNE 11, 1993

Breakfast
Keynote Speaker - G.M. Roberts, Director Alabama Highway Department.
ANNUAL BANQUET

The Alabama and Deep South Section Members and their guests were treated to a seafood buffet following the invocation by Gaye Sprague. Local Arrangements Committee Chairman Gary Dennis reported an attendance of approximately 149 going through the Buffet line.
District 5 outgoing President Gaye Sprague presented the District President's gavel to incoming President Dan Turner, since Dan was unable to attend the Annual Meeting in Richmond for the presentation.
The founding members of the section were recognized by President Hudson, with Bob Wolfe being the only member of this group present. All Past Presidents of the section president were also recognized by President Hudson.
The recipients of the 1993 "Charles E. Alexander Transportation Scholarships" were recognized as being Onis "Trey" Glen, recipient of a $1500 scholarship and Jason Walker, recipient of a $1000 scholarship. It was also noted that this is the first time two

(Please see MINUTES on page 3)
MINUTES...

Scholarships have been awarded.

President Hudson presented a check to the Auburn Student Chapter to defray the cost of services they provide to the Section.
The recipient of the "Transportation Engineer of the Year" award was treated to a slide presentation of his life and career by Nancy Hudson. The award went to Harold Raynor.
The recipient of the "Transportation Safety" award was treated to a slide presentation of his life and career by Jim Meads. The award went to Billy Joe DeRamus.

Tellor Committee Chairman Ed Watt reported that the results of the Members and Affiliate's election were as follows:
President - Locke D. (Bubba) Bowden, Vice President - Robert W. Adams, Secretary/Treasurer - Bruce Thomson, Affiliate Director - Billy Joe DeRamus, and Asst. Affiliate Director - William Flowers.

Gaye Sprague District 9 outgoing President, administered the oath of office to the 1994 Alabama Section Officers.

President Hudson announced that the Annual Scholarship Auction would be held in the banquet room following adjournments.

BUSINESS MEETING

I. Call to Order:
The meeting was called to order by President Nancy Hudson at 9:00 a.m.

II. Minutes:
President Hudson called for corrections/additions to the minutes of the March 11, 1993 Spring Meeting as published in the Summer 1993 Newsletter. There being none, Lynn Wolfe made a motion, seconded by Zeke Willis to accept the official minutes. The motion was adopted by voice vote.

III. New Membership Applications:
Robert Adams recognized the new members and affiliates and introduced the ones in attendance.

IV. Officers/ Director’s Report:

a. Secretary/Treasurer’s Report:
Robert Adams reported on the receipts and expenditures since the spring meeting and reported a current treasury balance of $6,528.62. He also reported the admission of three (3) members and one (1) affiliate. The total membership presented was 77 members, 57 affiliates class II, 49 affiliates class I, and 4 retired members for a total membership of 187. A motion was made to accept the Secretary-Treasurer’s report as presented which was passed by a voice vote.

b. Southern District 9 Representative’s Report:
In Vic McSwain’s absence, Gaye Sprague reported on several changes at the International level involving policy changes, etc.

c. Vice President’s Report:
Bubba Bowden reported on the situation with Zeke Willis' daughter who has cystic fibrosis and asked for a statement from Zeke concerning fund raising efforts for a double lung transplant. He also reported on the P.D.H. requirements and reminded everyone to retain their agendas for the meeting as certification of attendance. Bubba requested that if anyone has input for newsletter to contact Stuart Manson. It was also reported that sites selected for 1994 meetings are Alexander City for Spring Meeting in March, 1994, Annual Meeting again in Gulf Shores in June, 1994, and the Fall Meeting in Huntsville in October 1994. A motion was made by Bob Wolfe and seconded by Lynn Wolfe to accept the site selection recommendations as presented. The motion was unanimously approved by voice vote.

V. Committee Reports:

a. Scholarship
David Griffin reported that this year’s auction raised approximately $3100 and with the Sections share of this and with other donations the total in the endowment fund should exceed $40,000.

b. Technical:
Bob Vecellio reported that the Technical committee had communicated by phone and mail and had prepared a list of suggested tasks and goals and advised that members would receive a copy of this information. Bob further reported that the next T2 program would be on "Effective Technical Writing".

c. Legislative:
Dan Turner reported that the statute of limitations bill had failed again. He also reported on several bills being considered which affect Professional Engineers and Land Surveyors and Highway Department and advised everyone to contact Legislators concerning these.

d. Annual Meeting Attendance:
Gary Dennis reported a total of 113 registered for the meeting, 149 in attendance at the banquet last night and 80 in attendance at breakfast this A.M. He further reported that approx. $3150 was raised at the auction last night. Gary reported that the affiliates had a good year and commended President Hudson for her fine leadership this year.

e. Awards:
Jim Meads recognized recipients of the awards at last night's banquet, Harold Raynor - "Transportation of the Year", and Billy Joe DeRamus - "Transportation Safety Award". Jim reported that the Awards Committee is studying the possibility of an Affiliates of the Year Award and asks for input.

f. Membership:
Robbie Anderson reported that the Membership Committee is studying several incentive programs to recruit new members and asks for any ideas from membership.

Old Business:
None

New Business:
Dave Griffin reported that they are prepared for the Fall Meeting in Tuscaloosa on Oct. 7, 1994 and are looking forward to seeing everyone there. Harold Raynor reminisced on growth of the Section since its beginning with Bob Wolfe and Charles Alexander to what it is today and again offered his gracious appreciation for his award. It was also recommended that research be done to see where scholarship recipients are now.

The meeting was adjourned at 9:55 A.M.

_________________________

Highway Department Becomes Alabama Department of Transportation

On August 24, the State Highway Department officially became the Alabama Department of Transportation. In connection with this event, the Office of Intermodal Transportation was created. The Office of Intermodal Transportation will consist of rail, public transportation, and toll roads. Cecil Colson will oversee the operation of the Office of Intermodal Transportation, while Waymon Benefield will assume Cecil's duties as Accident Identification Engineer.
1993 Fall Meeting
Tuscaloosa, Alabama • October 7, 1993

8:00 - 9:00 AM  Registration
9:00 - 9:15    Welcome
9:15 - 10:00   High Speed Rail and Electric Cars
                In Alabama
10:00 - 10:45  View/Drive Electric Car (Break)
10:45 - 11:15  OSHA Requirements for Government
                Agencies
11:15 - 11:45  Building Toll Roads in Alabama
                with Private Money
12:00 - 12:30 PM  Lunch
12:30 - 1:00  Highway Director Mack Roberts
                Status of Highway Projects in Alabama
1:00 - 1:30    Business Meeting
1:30 - 2:00    Travel to JVC Disc America Complex
                for tour (optional)
2:00 - 3:00    Tour (optional)
3:00 - 3:30 PM  Arrival back at Bryant Center (optional)

Auburn University
Student Chapter News

Keith West reports that 421 persons used the ITE van shuttle system on E-Day, February 26. Equivalent travel cost was about 20 cents per person. Fifteen students installed the E-Day parking signs and operated 3 vans.

The Student Chapters of ITE and ASCE hosted a joint meeting on May 20. Joe Wilkerson, FHWA Division Administrator, spoke on "Future Directions in Transportation". He described the functions of FHWA, the provisions of ISTEA, and the importance of highway standards to 61 students.

Student Chapter member Troy Glenn received the $1500 Charles E. Alexander Transportation Engineering Scholarship at the Gulf Shores Annual Meeting.

The Student Chapter distributed 110 copies of the Alabama Section Directory. Jun Miaow successfully converted the directory to WordPerfect software.

Our current officers have graduated and are now working: Steve Jones for a Transportation Firm in Washington, D.C.; Stacey Glass for the Alabama Highway Department in Montgomery; Ed Blackmon for David Volker & Associates in Mobile; and Keith West for S. M. Cothern & Associates in Florence.

The Student Chapter thanks ALSITE for its support throughout the year. Special thanks are extended to Walter Dorsey, ALSITE liaison to the Chapter.

Past
President's Spotlight

Harold M. Raynor

Mr. Raynor earned a BSCE Degree and a MS Transportation Degree from Virginia Polytechnic Institute. He also received a BS in General Science from Randolph-Macon College. Mr. Raynor is a Registered Professional Traffic Engineer.

Mr. Raynor has served as Assistant City Traffic Engineer in Greensboro, N.C.; Director of Traffic and Transportation, City of Charleston, S.C.; and Manager of Traffic Operations, City of Charlotte, N.C. He is currently General Manager of Vulcan Traffic Management Services.

Mr. Raynor has served on a number of Technical Committees of the Institute of Transportation Engineers (ITE) and the Southern District Institute of Transportation Engineers (SDITE). He is a Fellow Member of ITE and member of the Southern District ITE, Alabama Section ITE, North Carolina Section SDITE and the National Society of Professional Engineers. Mr. Raynor is a member of the Institute of Transportation Engineers' Expert Witness Council.

ALSITE
Membership Spotlight

William Flowers

Mr. Flowers began his career with the State Highway Department in January 1961. Since that time he has worked in a variety of positions with the Highway Department. From 1961 to 1969, Mr. Flowers worked in the capacity of inspector and surveyor on Interstate construction jobs. In 1969, Mr. Flowers was promoted to Division Wide Bridge Inspector for the Sixth Division of the Highway Department. In 1975 he was promoted to Sixth Division Traffic Engineer, where he served until June 1993. At that time, Mr. Flowers was promoted to Sixth Division Maintenance Engineer.

Mr. Flowers was recently elected as Section Assistant Affiliate Director.

COMPLETED QUESTIONNAIRE NEEDED BY DECEMBER 1, 1993
LOUISVILLE COMPUTER - LINKS METRO BOUNDARIES

By implementing a fiber optic network over the next two years, Louisville will solve its metro area-wide information sharing problem.

Louisville, Ky., is known as a city without limits. Geographically, Louisville defies boundaries since the metro area spans the two heartland states of Kentucky and Indiana. And technologically, the city has drawn no limits in its plans to design more efficient, automated processes which will coordinate the timely flow of information and decision-making to all its employees. Providing its Data Processing Center with leading edge technologies in the past two years, Louisville hopes to create a cultural shift for its employees – from dependence on a piece of paper to a partnership with computer systems.

Spearheading the city's implementation of some cutting edge technologies is Don Edwards, director of the Office of Information Services, which includes the DP division totaling 55 people servicing data processing for about 42 agencies. It is here that Edwards and his staff have made great strides in automating many paper intensive tasks, improving the flow of information, managing costs more efficiently and increasing overall worker’s productivity.

Whether it is voice, data, imaging, graphics or multimedia, Louisville has one common strategy for managing all of these technologies. At the backbone of this strategy is the city's implementation of a fiber-optic network over the next two years that will put it on the forefront of telecommunications efficiency.

"What we have done through technology is change the way we have done business," says Edwards. "We have empowered users with timely information so they can make those decisions necessary to do their jobs."

Some of the most visible changes of how the Information Services Division better manages business is in the financial area. Using Dun & Bradstreet Software's Fixed Assets, Project Tracking and MARS/G (Management Analysis and Response System for Government) suite of application software, the division was able to create an increasingly paperless purchasing cycle, distribute data entry to the agencies and integrate between systems. Prior to implementation of this new system, the division was saddled with a 16-year old batch-driven system, which forced it to keep a dual set of books – one on-line plus a supplemental manual set of records.

The division now provides up-to-the-minute balances for each fund to each agency. Purchase orders are produced electronically instead of manually, saving about $2 per purchase order form. By cutting down on the number of paper forms, the division has reduced its paper trail from 700,000 lineal feet of laser printer paper in the first five months of 1992 to 400,000 lineal feet of paper so far this year. Electronic purchase orders have dramatically cut the amount of time it would take to submit a requisition and receive a purchase order. The manual requisition would take seven to ten days to complete. Now the process can be accomplished in 24 hours. The new system allows for multiple approvals in the purchasing cycle and is easy to use. Two important factors for all the city managers who need to use the system with minimal training.

"With the new systems in place, our division can better respond to agency requests for financial reports and related information," Edwards says. "The agencies can obtain real-time information on how much money is available in their budgets which allows them to plan their future expenditures better. The new system has allowed us to accomplish more with the same level of staff."

Another part of the city’s long-term technology plan is to expand its local-area networks from 15 to 42. "The objective of this is to get the information to the right person at the right time," says Edwards. The city has built its own wide area network called CityNet, which links all of the agencies together and allows city workers at a workstation to access any data needed for them to do their job.

One of the most successful systems on CityNet is CityCall. This service allows a citizen to call in with a city-related problem like a downed power line or a non-functional traffic light. Prior to implementation of the system, a citizen would call in a problem and the operators would take a message manually and pass it on to their supervisor, who would issue a work order number and assign an inspector to this job. If another caller reported that same problem, another work order number would be issued and frequently a different inspector would be assigned to the same job. This process not only wasted productivity by sometimes assigning two people to one job but it delayed the resolution of the problem.

Now with CityNet, reported problems are entered with electronic codes to eliminate redundant assignments to inspectors. All work done on the job is entered into the computer, giving callers real-time information on the status of the problem, as well as informing supervisors on the number of times that problem has been reported to the agency.

Still another new technology which the city is planning to embrace is client/server, a form of network computing that brings decision-making to the desktop and out of the mainframe domain. One of the first areas where the city plans to apply client/server technology will be in its fleet maintenance area. This department maintains more than 2,000 city vehicles such as ambulances, police cars and part trucks. What the client/server system will enable this department to do, which it couldn't perform as efficiently before, is the tracking of information such as the total status of the vehicle, from its purchase, maintenance and usage record to its performance and cost-effectiveness.

The challenge for city government or for any business today is to empower its workers with the right information to get their job done efficiently and quickly, says Edwards. "We feel that the systems we have in place and are planning for the future will help us realize that goal."
